

This set includes A-Z handwriting tracing pages with different Bible themes for each corresponding letter. There are four lines of tracing practice, with a blank line for children to write the letter on their own. Additionally there is a small picture to color, a short sentence to read, and a sticker box for completed work. This is a great set to use with children who are just learning their letters, I recommend completing one tracing line per day, using skinny tip markers. If you're using these with an entire classroom, consider using [dry erase sleeves](#) so that you can reuse them with multiple children.
